

TITLE X: CELEBRATING 50 YEARS OF FAMILY PLANNING SERVICES DELIVERY

For 50 years, Title X family planning clinics have played a critical role in ensuring access to a broad range of family planning and related preventive health services for millions of low-income or uninsured individuals and others. Title X is the only federal grant program dedicated solely to providing individuals with comprehensive family planning and related preventive health services. This infographic aggregates available data from the life of the program to provide insight into the breadth and depth of Title X-funded services.

ABOUT TITLE X

A network of public and private nonprofit health and community service agencies deliver Title X services.

GRANTS AWARDED TO

- State and local health departments
- Nonprofit family planning and community health agencies

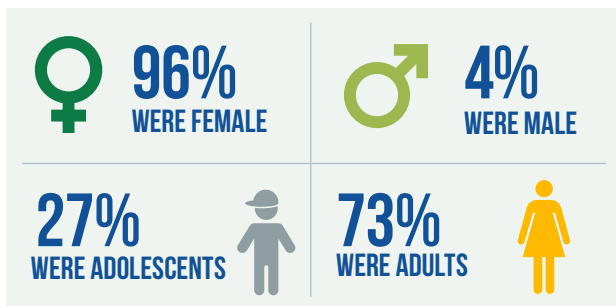

SERVICES PROVIDED

In 50 states, the District of Columbia, and eight U.S. territories and freely associated states

(American Samoa, Commonwealth of the Northern Mariana Islands, Federated States of Micronesia, Guam, Puerto Rico, Republic of the Marshall Islands, Republic of Palau, and the U.S. Virgin Islands)

TITLE X CLIENTS SERVED SINCE 1970*

Providers served a varied population, most of whom were women.

Title X clinics have served more than 190 million clients, including:

- 182.2 million women
- 8.1 million men
- 139.5 million adults
- 50.8 million adolescents

* From 1970 through 2019, an estimated 190.3 million individuals visited a Title X-funded clinic for family planning and related preventive health services. This estimated cumulative number of Title X clients is not an unduplicated count; individuals who seek Title X care over many years will be counted as a client in each of the years they make a visit.

CONTRACEPTIVE METHODS

Title X providers offered clients a broad range of effective and medically safe contraceptive methods approved by the U.S. Food and Drug Administration.

Of all female clients, **82% (73.7 million)** used a most (9%), moderately (54%), or less (19%) effective method of contraception at the conclusion of their last clinic visit with a Title X provider.†

SCREENING AND PREVENTIVE HEALTH SERVICES

41%
PAP TESTING
PERFORMED FOR 41%
OF FEMALE CLIENTS

46%

CLINICAL BREAST EXAMS
PERFORMED FOR 46% OF
FEMALE CLIENTS

1.9 HIV TESTS PER 10 CLIENTS WERE PERFORMED

Title X-funded sexually transmitted disease (STD) and human immunodeficiency virus (HIV) screening services prevented transmission and adverse health consequences.

Clinics performed:

- 34.1 million chlamydia tests‡
- 18.3 million HIV tests
- 76.5 million non-HIV STD tests

Title X-funded cervical and breast cancer screenings contributed to early detection and treatment.

Title X clinics provided:

- Papanicolaou (Pap) testing to 37 million female clients
- Clinical breast exams to nearly 42 million female clients

† The cumulative numbers of female users served and cumulative numbers of females using most, moderately, or less effective methods are not unduplicated counts.

‡ Data reflect services provided from 2005 through 2019 and assumes 1 chlamydia test per user tested.
