

Cornell Scott Hill Health Corporation

Cornell Scott Hill Health Corporation (CS-HHC) is a nonprofit organization that has been a statewide Title X grant recipient since 2013. As a federally qualified health center (FQHC), CS-HHC delivers services to approximately 55,000 clients through direct service sites including school-based health centers (SBHCs) in New Haven County, Connecticut.¹

Stats at a Glance²

- ▶ Number of family planning (FP) encounters – 19,013
- ▶ FP users with incomes below 100% Federal Poverty Level (FPL) – 11,166 (98%); all FP users with incomes below 250% of FPL – 11,307 (99%)
- ▶ Number of tests performed for gonorrhea – 7,109, syphilis – 3,933, and HIV – 5,964
- ▶ Number of female users who received a chlamydia test – 4,292 or a Pap test – 3,752

Overview of Services Offered

As a Title X recipient, CS-HHC provides a broad range of FP services including pregnancy prevention and birth spacing, pregnancy testing and counseling, assistance to achieve pregnancy, basic infertility services, sexually transmitted infection (STI) services, and other preconception health services. The services are voluntary, confidential, and provided regardless of ability to pay.³ The infographic below is an Overview of Services Offered within the CS-HHC network. The data shown below are not specific to any particular site but rather are representative of the broader grantee network. For information on services available at individual service sites, please refer to the [OPA clinic locator](#).

Equity in Practice

CS-HHC engages with community leaders to ensure its services are culturally responsive and meet the needs of diverse populations, including refugees. The grantee partners with community members, translators, and interpreters to ensure CS-HHC materials and services meet communities' cultural and linguistic needs. CS-HHC also collaborates with Integrated Refugee and Immigrant Services—an agency that provides a range of services including health supports and case management to immigrants, refugees, and asylum seekers—to ensure its services are tailored to client populations. Partnering with diverse community members and organizations has enhanced the grantee's services, its relationships with communities, and its understanding of communities' cultures and languages.

Innovations in Practice

CS-HHC's marketing strategy has significantly improved its presence and reach. The grantee has a dedicated Marketing and Community Relations Department that supports an extensive grassroots community outreach, digital advertisement, and social media outreach strategy. For example, CS-HHC leverages many social media platforms to post educational materials designed to help its audience make informed decisions about sexual and reproductive health (SRH). Social media platforms also enable the grantee to interact and build relationships with its audience by answering questions, addressing concerns, and providing additional support. In addition to social media outreach, Cornell Scott Hill's marketing department convenes and supports youth committees composed of teens ages 14 to 19, who provide valuable guidance to improve SRH services for teens.

Did You Know?

CS-HHC is committed to supporting residents in various living situations, such as people living in group home settings and individuals who are unhoused. For example, CS-HHC promotes its services at group homes to raise awareness of the services that are available and accessible to residents. CS-HHC also has providers who actively engage with the community, demonstrating the grantee's dedication to serving diverse populations and making a positive impact beyond the confines of the clinic.

The grantee benefits from staff trainings focused on improving teens' access to quality SRH services. The trainings have helped staff identify opportunities to make their waiting rooms more youth-friendly and enhance outreach to this population.

CS-HHC has a network of SBHCs that promote healthy behavior among youth, raise awareness of the Title X services available to teens, and improve access to SRH care even when school is not in session. This partnership has improved relationships with students and teachers and filled a critical health care need for students.

About the Title X Program

The Title X Family Planning Program, created in 1970 and authorized under Title X of the Public Health Service Act, is administered by the Office of Population Affairs (OPA) in the U.S. Department of Health and Human Services. For more information, please refer to OPA's [website](#).
